IN THE SPECIFICATION:

Please amend the specification as follows:

Please replace the paragraph on page 5, lines 9-14, with the following paragraph:

-- Figure 2 illustrates an interrupt delivery system 20 for a multi-node computer system in accordance with one embodiment of the present invention. Interrupt delivery system 20 includes a first SNC 22, which is coupled to processors 24a-d, and a second SNC 26, which is coupled to processors 28a-d. Both SNCs 22 and 26 are coupled to a scalability port switch (SPS) 30, which is in turn coupled to an IOH 32. IOH 32 is also coupled to a PCI 64-bit hub (P64H) 34, which supports a number of PCI devices 36a-d. --
